

BRC-THRU 308

PERIMETER FENCE RANGE

Although the wire aperture on the BRC-thru 308 is much larger than those on the high secure or economical product ranges it certainly does not compromise on strength or reliability. This fence was designed to secure the perimeter of recreational facilities, sports fields and schools.

WIRE ARRANGEMENT	4mm (Main) x 4mm (Cross)
APERTURE	100mm (Vert) x 50mm (Horiz)
SHEET SIZE	1.8 / 2 / 2.4 / 3m (H) x 2.5 / 3m (W)
RIGIDITY	4 V-bends
SECURITY	Anti tamper fixator solution (Maximum wire contact)
DESIGN	Highly transparent see through panels

*Main wire arrangement - upright/vertical (from top to bottom); Cross wire arrangement - flat/horizontal (from left to right).
